

TR1 Last Secret Fixer

By SuiKaze Raider – Version: 1.1.0.0.

Requirements:

- Windows XP, Vista, Seven, Eight or higher.
- Microsoft Framework .NET 2.0 (Only on Windows XP)

Description:

With this tool you can fix the last secret bug; that secret is not counted. The reason is because that secret is defined as the first and not as the third. And for that reason, this secret is not counted if you get the first.
